Linda – attached is our final document from the Juneau County investigation. I assume that you would like share with the state prior to posting to the web? I understand that we have at least one FOIA's in house for which this would be responsive. Once I hear from you, we will send on for posting.

FYI - Posting things on the web has been very helpful to minimize the burden of FOIA requests. EPA is moving to require posting of all inspection reports on the web in the near future.
